903 pastry cream ales are sweet and decadent, packed with big flavors in a light package. It's like anything a normal brewer might add to a stout, but we do it on pale malt ale instead, making very few breweries offer this style, and it's our #1 micro-seasonal rotator. 903 pastry cream ales utilize the biscuity malt base for sweet and inspired flavor additions, anything from marshmallow, vanilla, cake, cookies, fruit, coffee and so much more.

Any non-traditional ingredients we might find at a bakeshop that we'd toss into a beer to make it extra fun and delicious.

Gose or Berliner Weisse style ale with light fruit additions. Bready malts, mild tartness, malty sweetness. A softer touch of fruit gives these beers complexity without intensity.
